

This document addresses the proposed LPFM service. It is not a good idea. Approving the LPFM would impact my ability to hear K-LOVE (91.1 FM in Denver, CO metropolitan area.) which serves my community with positive and encouraging music and comments. This would have a negative impact on my listening enjoyment as well as for many others in my local community. K-LOVE brings a fresh and thought provoking message to my community that offers hope to all in this community and removal of this station would be detrimental. Please do not approve the LPFM service.

Thanks,

Rick Prouty
